

Get out of bed...

...and into the future.

Prodigy™ comes equipped with so many intelligent benefits, isn't it time you made the switch to the only bed that keeps pace with your active lifestyle - day and night. Now, and in the future.

genius
in the bedroom.

The bed of the future is here today.

Today's advanced technology has helped improve the quality of life in thousands of different ways. In the workplace, in your car, in your kitchen... you've come to expect more from the products you use day after day. But what about your bed? Other than size, is it really any more advanced than the one you slept on when you were a kid?

Prodigy is the first bed that puts today's advanced technology at your fingertips. It's a bed with built-in features that can actually help you sleep better, think better, and feel better.

Prodigy is the only bed that offers:

- iPhone® and iPod® touch applications*
- Two-way Wi-Fi remote with LED screen
- Repositioning anti-snore-disturbance function
- Sleep timer to promote a smooth transition to sleep at specified times
- Patented gentle wake alarm, massage paired with audio alarm
- Remote control locator
- Whisper Quiet motor with 600 lb lifting capacity
